### Product description

Super soft down that you can use to decorate. Down is the super soft member of the feather family, which are essential for Christmas and Easter, but can generally be used for creative projects all year round. Down and feathers are particularly popular for the children’s cut-and-paste days. Not only are they nice to touch, but they also strengthen the children’s tactile sense and fine motor skills. For adults, down fits perfectly into the creative decorative world of feathers, pearls and sequins. Down should therefore always be part of your creative supplies. Browse our wide assortment of feathers and down in different colours and sizes to find the ones that suit you and your creative project. Down has a soft look that easily fits into many hobby projects – especially for Easter. You can easily stick it into self-hardening clay or glue it to various objects.
