### Product description

Shrink plastic sheets with printed motifs and a matte, shiny surface that you can freely decorate with lots of beautiful colours. Crimp plastic and an oven offer many hours of creative hygge – whether you are a child, young person or an adult. So if you haven't tried working with this fun material yet, it's about time you did. What's special about these particular shrink plastic sheets is that there are already motifs on them. That just means that you and your children can skip right to the fun part – the colouring-in. You can decorate the motifs on the shrink plastic sheets with markers and coloured pencils, which you can find on our website, in all the colours of the rainbow – just as you can also find plenty of inspiration in our idea universe. All of the ideas here are completely free, so that both you and your family

can embark on exciting projects using shrink plastic sheets.. Colour the motifs with either coloured pencils on the matte side or Plus Colour markers or Uni Posca markers on the shiny side and allow to dry

Cut out and make a hole for hanging, if relevant (use the second-largest hole in a punch plier) Place them on a sheet of greaseproof paper and put them in a preheated conventional oven at 170 degrees for a few seconds

Keep an eye on the oven door and see how the shrink plastic first curls up and then straightens again (it will shrink by up to 40%)

Remove the shrunken motifs from the oven and let them cool down.
